Mangalore, India

2021 - 2024

Hindu P.U College

12th Science

Percentage: 93%

Shirva, Udupi, India

2019 - 2021

EXPERIENCE

feat(explorer): As a user, I want the Portal page to display latest Attestations | Merged

- Added a feature to display the latest Attestations on the Portal page for users.

feat(explorer): As a user, I want the Module page to display Portals leveraging it | Merged

- Enhanced the Module page to show a list of Portals leveraging the module, improving user experience.

SKILLS

Programming Languages: Python, Bash Scripting

Tools / Platforms: AWS, Git, Kubernetes, Docker, Linux, Google Cloud Platform, CI/CD, Terraform, Github Actions, Microsoft Azure, Trivy, Sonarqube, Grafana, Prometheus

PROJECTS / OPEN-SOURCE

CDrive - Secure Cloud Storage | [Link](#)

Next.js, TypeScript, Tailwind CSS, PostgreSQL

Developed a full-stack cloud storage and file-sharing platform with secure user authentication, optimized performance, and a modern responsive UI.

Built using Next.js, TypeScript, Tailwind CSS, Prisma, Node.js, Clerk, Cloudinary, and Shadcn/UI for seamless integration and scalability.

Twitter Job Finder Script | [Link](#)

Python, Twitter API

Developed a Python-based script to scrape and filter job postings from Twitter (X) using keywords and hashtags, integrated with custom date filters and X API key authentication. Implemented robust error handling and displayed job results in a clean, readable format.

Infra-mind-forge | [Link](#)

Next.js, TypeScript, Node.js, AI/LLM Integration

Developed InfraMindForge, an AI-powered infrastructure-as-code generator that transforms high-level architecture ideas into deployable IaC templates and visual mind maps.

Built with modern full-stack tools, an automated workflow, and production-ready cloud infrastructure.

Genkart | [Link](#)

Built and deployed GenKart, a full-stack e-commerce platform showcasing end-to-end DevOps practices including automated CI/CD pipelines, containerization, and cloud deployment.

CERTIFICATIONS

- Cloud Computing and Distributed Systems - NPTEL Online Certification (SWAYAM)
